How to Invite Players to Your Team

A step-by-step guide for team captains on SportsGrove.

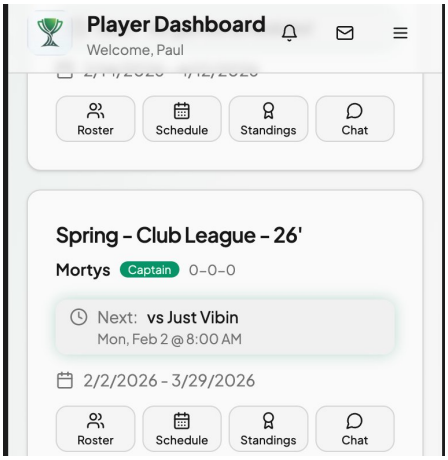

As a team captain, you can invite players to your roster in three ways: by sharing an **invite link**, sending an **email invitation**, or adding **past teammates**. This guide walks you through each method.

Getting to the Invite Screen

Step 1: Find your team on the Dashboard

Open SportsGrove and go to your **Player Dashboard**. You'll see cards for each league you're in. Find the team card for the league where you want to add players.

Tip: *Each league card shows your team name, your role (Captain), and quick-access buttons at the bottom.*

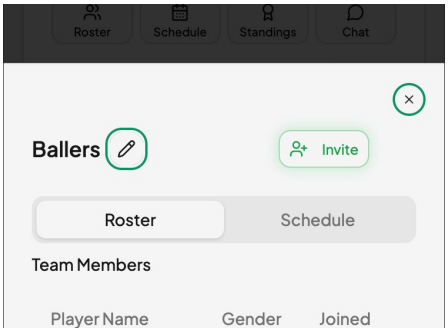

Step 2: Tap "Roster" on the team card

On the team card, tap the **"Roster"** button at the bottom left. This opens your team's roster showing all current players.

Step 3: Tap the "Invite" button

On the roster screen, you'll see an **"Invite"** button near the top right, next to your team name. Tap it to open the Invite Teammates screen.

> ***Tip:*** *Only captains will see the Invite button. If you don't see it, check with your league organizer.*

Choose How to Invite

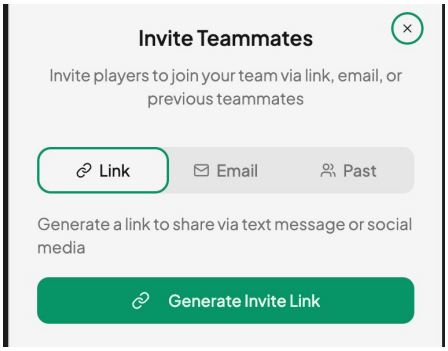

Once you're on the **Invite Teammates** screen, you'll see three tabs: **Link**, **Email**, and **Past**. Choose the method that works best for you.

Share an Invite Link

Best for sharing directly with your teammates via **text message or group chat**.

1. Make sure the **"Link"** tab is selected (it's the first tab).
2. Tap the green **"Generate Invite Link"** button.
3. The link will be copied to your clipboard automatically.
4. Paste the link into a text message or group chat and send it to your teammates.

> ***Tip:*** *This is the easiest method for inviting multiple people at once! Only share the link directly with players you want on your team.*

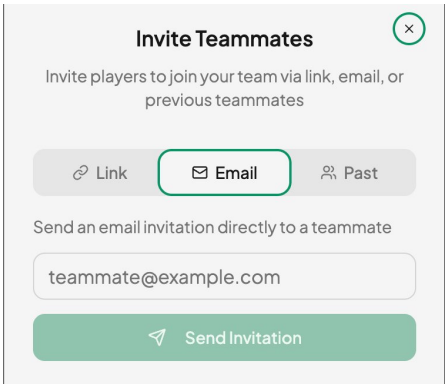

✉ Send an Email Invitation

Best when you have a player's **email address** and want to send them a direct invitation.

1. Tap the **"Email"** tab at the top of the Invite Teammates screen.
2. Type your teammate's email address into the text field.
3. Tap the green **"Send Invitation"** button.
4. Your teammate will receive an email with a link to join your team.

Tip: *Send one invitation per email address. Repeat for each player.*

■ Add Past Teammates

If you've played with someone on SportsGrove before, you can quickly re-invite them.

1. Tap the **"Past"** tab at the top of the Invite Teammates screen.
2. You'll see a list of players you've previously been on a team with.
3. Tap on a player's name to invite them to your current team.

Tip: *If you don't see anyone listed, it means you haven't had teammates on SportsGrove before. Use the Link or Email method instead.*

Quick Reference

Method	Best For	Steps
Link	Group texts, inviting many teammates at once	Roster > Invite > Link > Generate Invite Link > Paste & send
Email	Direct invites when you have their email	Roster > Invite > Email > Enter email > Send Invitation
Past	Re-inviting players from a previous season	Roster > Invite > Past > Select player
